

**Your work is really amazing, Mr. developer. Thank you very much for making the changes and cooperating. I really appreciate it.**

---

Some major changes to be made: The client said that instead of the dropdown menu "Select your visa", He wanted all of the "Our Services" options to be clickable and when an option is clicked, it should take the visitor to another page. So the embassy details should be in the "Visa Services" page. I will provide further details and the content for each page below. And also 3 more services is to be included which will be provided below.

**Remove the dropdown list** of embassies to select in the beginning of the homepage.

**In the menu bar**, either change the font or make them stand out by doing something, maybe adding some bold to the text in the header menu, such as "Home, About Us....."

**Add google maps location to the maps at the bottom of the page:**

<https://g.co/kgs/4yJdpkb>

**Our services** section, change the travel insurance from "Comprehensive Travel Insurance" to "Trusted travel insurance".

Make the flight booking service first, then the hotel etc...

Services to add: "Corporate travel solutions", "Transfers" and "Housemaid contract"

**Our service pages:** Most of the redirected pages should from [alfursantravles.com](http://alfursantravles.com)

**Visa services:** Similar to [Alfursantravles.com](http://Alfursantravles.com) every country should have it's flag, and below the flag, the country's name should be written. When a country is clicked, then the visa requirements should be opened up in another page, or if that is hard, you can make it simpler by listing the requirements in a dropdown way, where if someone clicks France, then below that the requirements should dropdown.

Below these, there should be a CTA button, the button should be a 3D button labeled in golden color like homepage color with the text of the button being in black and that button should lead the customers to this link: <https://wa.me/+966>

---

**Our customers** section, The company’s logo “Saudi Global Ports Co.” is very small and not readable, so kindly make it a bit more large by removing the top and bottom borders and zoom in more. And then the companies “Zamil Steel” & “Saudi Diesel Equipment” are quite small as well, so make them a little bit bigger.

---

**In the bottom of the page,** Add the telephone number along with the other numbers.

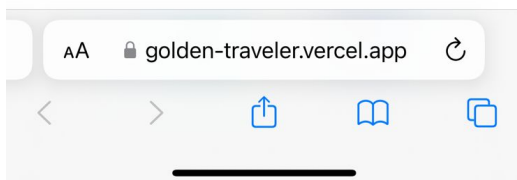

**Integrate whatsapp** in the bottom of the page along with the other contact info, a clickable link. <https://www.wa.me/+966>
